

MODEL “FWG” BY-PASS BLANKING PLUG

DESCRIPTION

The Wireline Solutions “FWG” and “RZG” Bypass Blanking Plugs with Removable Mandrels are positive blank-off services designed to seal off pressure from above and below. The Model “FWG” Blanking Plugs are equipped for Top No-Go landing in Model “F” Non-Porting Seating Nipples, and upper bore of Model “L” Circulating Sleeves. The Model “RZG” Blanking Plugs are equipped for Bottom No-Go landing in Model “R” Non-Porting Seating Nipples. The plugs are compatible with normal wireline equipment and procedures.
