

MODEL “RSB” RETRIEVABLE SEALBORE PRODUCTION PACKER

DESCRIPTION

The model “RSB” Retrievable, Seal Bore Packer delivers high performance with simplicity of design and desirable economics. It is a 10,000 PSI @ 300F rated packer when dressed with the ECNER Array Packing System. It can also be dressed with standard Three Element Packing Elements for 8,000 PSI @ 300F applications and a High Temperature Sealing System for 600F Steam Injection Applications. While it is an ideal Gravel Pack Packer, it is also ideally suited for deep, high pressure, completions. A full line of packer and tubing seal accessories and elastomers are available.

The RSB packer can be set on Wireline using Wireline Pressure Setting Assembly or on tubing using Hydraulic Setting Tool tubing.

To retrieve the packer is needed to use a Retrieving tool.

PRODUCT SPECIFICATION

Size (inches)	Casing		Recommended Hole Size (inches)	Tool OD (inches)	Packer Bore (inches)	Min ID Thru Seals (inches)
	Weight (lbs/ft)
